If a child or vulnerable adult accuses a member of staff/student helper of abuse, report this immediately to the Public Engagement Events Manager or Science Festival Coordinator at the Information Stand. They will access the Children Protection Issues Manager on your behalf.

| - If you are the recipient of any complaint or accusation from a child or vulnerable adult, it is important to listen without making or implying any judgement as to the truth of what is being said. |
| - If a child or vulnerable adult makes a complaint, or if there are other reasons for suspecting abuse, you should not attempt to investigate this yourself, but should report to the Child Protection issues officer at the Information Stand, the designated contact in the first instance, or the Festival Manager or Officer. |
| - Remember that those who abuse children and vulnerable adults can be of any age (even other children and vulnerable adults), gender, ethnic background or class, and it is important not to allow personal preconceptions about people to prevent appropriate action taking place. |
| - If you have any suspicions or concerns regarding possible child abuse, or if there is anything, with which you feel uncomfortable, you should raise these with the Child Protection Issues Officer at the Welcome Desk, the designated contact in the first instance, or the Festival Manager or Officer. |

Typically the Festival Manager or Officer would take the following steps:

| - Write down everything that has given cause for concern and say why. This would be done as soon as possible, and certainly within 24 hours of the allegation |
| - Ask the member of staff/student helper against whom the allegation has been made to keep records of all conversations, meetings attended, and letters received and telephone calls relating to the allegation; |
| - Record any dates and times of incidents and any contact with the child/vulnerable adult’s parents/ carers. Only the facts would be recorded, not personal opinions or assumptions unless supported by facts |
| - Record any explanation for the injuries of behaviour given by the child/vulnerable adult and/or member of staff/student helper |
• Record who the child or vulnerable adult has come into contact with and in what context since the allegation (where known)
• Follow the procedure laid down in the University’s Child and Vulnerable Adult Protection Policy.
